## D. ParaReviews

**REVIEWS SELL BOOKS.** Reviews make a book stand out. We can help each other by posting (five star) reviews at Amazon.com, B&N.com, BooksAMillion.com and other web sites.

**IF YOU WOULD LIKE TO REVIEW BOOKS** in your area of interest/expertise, contact the listing publisher directly with your Postal address. Do not send your request to Para Publishing. Please award the book at least four stars or decline to review it. A review with fewer stars is harmful to sales. The book you receive is yours to keep. **IF YOU WANT YOUR BOOK REVIEWED** on Amazon.com, B&N.com, etc, list it here in Publishing Poynters Marketplace (no charge). Just send your request and description to [DanPoynter@ParaPublishing.com](mailto:DanPoynter@ParaPublishing.com)  
Draft your request so that I do not have to edit it. Make it SHORT (100 words max), no italics or bold type. Just describe the book in a few words; don't send a lengthy review of it. Lengthy submissions will be returned for rewriting or ruthlessly cut. Reviewers only need enough information to see if they have expertise and an interest in your category. Supply full contact information including your email address. Write the draft as it should appear so that I do not have to do more than Copy\Paste. Put "Review Wanted" in the subject line.

4. In ***Rosie's Gold***, fiction, a young woman is determined to succeed on a start-up farm near Prescott, AZ. When her parents die in a car crash, she must confront her demons - loss, child sexual abuse, PTSD, and potential perpetrators who arrive at the farm. Wainwright, a vet with PTSD, thinks he's still a sharpshooter - drunk or sober. ## 7. Work's New Age: The End of Full Employment and What It Means to You

by James B. Huntington

A book giving a fresh view on what is happening with American jobs is finally available. It is a resource for all of us. It explains what we are experiencing in terms of numbers, trends, and social patterns, and what we can – and cannot – do about it.

Work's New Age is the first full-length book in years to address this massive national concern. It shows why the gap between workers and jobs will get ever larger, and which possible solutions will only harm. It is well documented and thoughtful but easy to understand. The book even provides hope, by demonstrating how we have the potential to transform this crisis into a new American golden age.

If you would like to review it and post your review on Amazon, Barnes & Noble, or elsewhere, email me at [jhuntington@royalflushpress.com](mailto:jhuntington@royalflushpress.com) and I will send you a copy.

## 12. 2011 Indie Excellence Award Memoir Finalist

New Release That **Explores a Family's Response to Losing a Father and Husband**

"We stand at the beginning of a new year – or a new relationship, a new job, or even a simple drive out in the country – and we imagine the road ahead, as if we could see clear and straight. As if there were no bends in the road that seemingly come out of nowhere." These words from the book's forward provide a haunting preview of the author's story of love and heartbreak.

**Final Drive** follows the story of a Midwestern family's great loss when, out of the blue, Hess' husband tells her he wants a divorce. He says he's no longer in love with her and wants to shed his family responsibilities. Seemingly overnight, he goes from being a devoted husband and father to someone who acts as if his family and 20-year marriage meant nothing. Tragedy strikes again a few months later when Bill dies after a terrible

motorcycle accident near a road called Final Drive. Hess must help her two children deal with the emotional fallout from losing their father. Along the way, she discovers how to triumph in the face of adversity.

Author Shelly Hess lives in a St. Louis suburb and works in the medical billing industry. She hopes sharing her experience will encourage and inspire those facing their own challenges.

## **17. Wildlife Stalker – Days in the Life of Filmmaker Bob Landis**

Recording incredible wildlife behavior on movie film and video is the hallmark of Bob Landis' films. For more than 40 years, he has made wildlife movies about swans, coyotes, elk, bison, bear, otters and more, and he loves to show the unusual: an eagle drowning a duck, or a coyote chasing a wolf, for example. His films have aired on PBS, Nature and on National Geographic Television. A place dear to his soul, Yellowstone National Park is where most of this story takes place. This biography contains two narratives wound into one: a depiction of days afield with a wildlife cinematographer who has filmed and co-produced stories about Yellowstone's iconic species, and it is a collection of flashbacks to Landis' past – growing up as a small-town Wisconsin boy, as a school teacher turned wildlife filmmaker extraordinaire.
